Faculty Senate Curricular Affairs Committee Sixty-ninth Report.

At its meeting of April 1, 1971, the Faculty Senate Curricular Affairs Committee considered the following matters which are now submitted to the Faculty Senate for information or confirmation as indicated.

I. Items requiring confirmation by the Faculty Senate.

A. College of Arts and Sciences

1. Department of Psychology.

Add -- PSY 463 Psychology of Personal Meaning I & II, 3
Experimental and academic examination of the sources of meaning of
human existence. Exploration of modes for finding such meaning.
(Lec. 3). Prerequisites: PSY 113, junior standing. V. ATYAS.

2. Department of Bacteriology and Biophysics.

Add -- BPH 302 The Molecular Basis of Life II, 3
A study of the molecular basis of life as a key to the origin of
life, evolution, expression of genetic information, and biological
control. The course is designed for the non-biology major interested
in gaining an overall view of biology at the molecular level. (Lec.
3). Prerequisite: Junior standing. FISHER, HARTMANN, COHEN, TREMBLAY.

3. Department of Art.

Add -- Concentration in Art History in the Bachelor of Arts Curriculum.

Concentration in Art History

The concentration in art history is an undergraduate introduction to the methods and problems in the field through courses in the arts from antiquity to the present and in research techniques. The art history student with a B.A. should have, in addition to a basic knowledge of his subject, understanding of world history, mythology, or comparative religion, literature, philosophy, music history and of foreign languages.

This program seeks to provide the student with a background in cultural and intellectual history and an awareness of the research possibilities of the discipline. The graduate will be prepared to continue study for the M.A. or Ph.D., or he may choose to explore employment possibilities in teaching, museum administration, art publishing or criticism, gallery work, or archaeology.

Students concentrating in Art History are required to select 30 credits in Art History according to the outline below:

251 and 252	Introduction to History of Art	6
353 or 354	Art of Egypt and Mesopotamia	3
	The Art of Greece and Rome	
355 or 356	Early Christian and Byzantine Art	3
	Medieval Art	
357	Italian Renaissance	3
359	Baroque Art	3
361 or 362	Modern Art	3

An additional 3 credits must be selected from the following:

265, 266	History of Asian Art	
272	Pre-Columbian Art	3
273	African Art	

An additional 6 credits must be selected from the following:

462	Modern Art Seminar: Art Since 1945	6
469, 470	Art History -- Senior Projects	

Electives: Students concentrating in art history should achieve intermediate level efficiency in at least one foreign language.

Comment: This request has been studied in detail and all questions relating to staffing, course offerings, library holdings, equipment, and other supportive facilities and plans for field trips are found to support the request.

4. Department of Geography.

Add -- GEG 445 Geography of Modernization in Africa 11, 3
 Survey of the impact of modernization processes under varying environmental conditions upon selected cultural groups in Africa. (Lec. 3).
Prerequisite: One GEG 100 level course or permission of the department. BRAND.

5. Department of Zoology.

- ✓ a. Add -- ZOO 262 (BOT 262) Introductory Ecology 1, 3
 Structure and function of ecosystems; limiting factors; population dynamics; population interactions and community relationships. Selected habitats and general ecological effects of man. (Lec. 3).
Prerequisite: Two semesters of BIO, BOT, or ZOO (or any combination thereof). SHOOP & HALVORSON.
- b. Add -- ZOO 264 Introduction to the Biology of the Seashore SS, 3
 Lectures, laboratories and field trips dealing with major marine groups: their morphology, life history, physiology and ecology. Special emphasis on ecological relationships and adaptations to environmental factors. Laboratory is field oriented. (Lec. 2, Lab. 3). Prerequisites: BIO 101 and 102. STAFF.

- c. Add -- ZOO 463 Animal Ecology 11, 3
 Roles of animals in the structure and function of ecosystems. The adaptations of animals to their environments and the effects of limiting factors. Analysis of animal populations and communities. Use of statistical techniques. Readings in primary source materials, laboratory and field studies. (Lec. 2, Lab. 3).
Prerequisite: BOT or ZOO 262, or permission of the instructor. SHOOP.
- d. Drop -- ZOO 362 (162) -- Contingent upon the approval of ZOO 262 (BOT 262) and ZOO 463, the Department of Zoology requests permission to drop ZOO 362, because the above cited courses incorporate the materials included in ZOO 362.

B. College of Pharmacy

Change number and description of PCG 359, Public Health, 1, 3 to
 PCG 459 Public Health 1, 3
 A study of the principles of prevention and control of disease and the application of this information to current health problems. (Lec. 3).
Prerequisite: BAC 201 or equivalent. WORTHEN and CANNON.
